

BIO SMART™

Therapeutic Infrared Heat

Heat 800 sq ft for \$1^{.20} /day*

with the Basic BioSmart® portable far infrared heater

Far Infrared heating is...
Efficient, Safe, Therapeutic

Cost Efficient

The BioSmart® portable furnace can pay for itself in as little as 3 months. The BioSmart® portable furnace can heat up to 800 sq. ft. for about \$1.20/day. With its ability to efficiently zone heat specific areas of your home, you can reduce your heating bill by 35-50%.

Health Enhancing

The Basic BioSmart® portable furnace produces wavelengths in the far infrared range, which can reduce muscle and joint pain, decrease joint stiffness, relieve muscle spasms, increase flexibility, and increase blood flow.

Comfortable

BioSmart®'s electronic thermostat has a range from 58 to 86 degrees that can be adjusted in one degree increments. BioSmart® portable furnaces distribute heat evenly by warming water molecules in the air, eliminating a loss of humidity. Soft, comfortable far infrared heat is never drying or irritating.

Safe

International Safety Rating and fire-safe technology makes the BioSmart® portable furnace the safest choice for your family and your home.

BIO-1500PB

14" H x 13.5" W x 16.5" D

Key Features:

- 30,000 hour far infrared emitters
- 10% more heat than the leading competitor
- Digital Display with easy-to-read temperature
- Ultra-quiet, powerful fan system
- 3-year limited manufacturer's warranty

Far Infrared Heat

As much as 80% of the heat produced by an infrared heater is absorbed by the objects & water molecules in the room, so the heat is retained longer instead of quickly dissipating out cracks & poorly insulated areas.
